8672

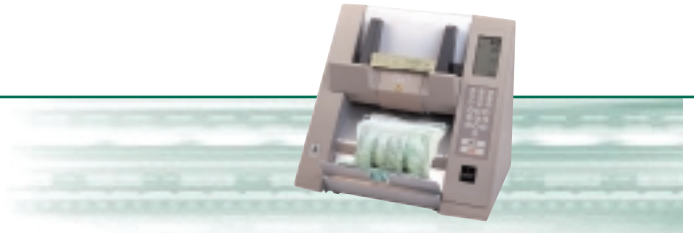

Note/Document Counter

A high function, heavy duty desktop note counter

8672

Note/Document Counter

The **8672** high function, heavy duty desktop note counter provides note specific authentication at speeds of up to 1750 notes per minute.

High speed performance

The heavy duty machine provides smooth, fast and reliable processing of note and other documents, such as checks. With a choice of three throughput speeds, the **8672** adapts automatically to individual note characteristics enabling more constant counting and is ideal for environments where high volumes of notes are processed.

Multiple functionality

Rouge note detection by height (SD) is standard. With note specific counterfeit detection options and three levels of totals, the **8672** is suitable for use in cash centers, large retail and commercial deposit proofing and preparing centers.

Ease of Use

The large LCD display and touch pad places the control of the machine at the operator's fingertips. The wide document loading and removal trays ensure fast, efficient processing.

Range of options

Available with the following counterfeit detection options:

UV - checks note paper for fluorescence

CDA - counterfeit detection that measures the presence of magnetic ink

MTD - checks for the presence of metal thread

Intelligent

An optional RS232 serial port provides an easy interface to a printer, PC or other device for reconciliation.

De La Rue Cash Systems Sorters/Counters are the direct result of over 100 years experience in design, manufacturing and distribution of world class coin processing machines and are fully certified to carry the CE mark. This product is manufactured in an ISO-9001 registered facility. Worldwide service and support is provided through De La Rue Cash Systems network of branch offices and authorized distributors.

Technical Specifications

Dimensions

Height: 15.00" (381mm)

Width 16.40" (417mm)

Depth: 10.50" (267mm)

Net weight

22.5 lbs. (10.2kg.)

Batching capacity

Variable batching from 1-999

Document size range

Minimum 2" x 4" (51 x 102mm)

Maximum 4.25" x 9.50" (108 x 241mm)

Hopper capacity

Up to 1000 notes, teller quality

Stacker capacity

Up to 200 notes, teller quality

Throughput speeds

500/1000/1750 notes per minute

Power supply

115V (±10%), 230V AC (±10%),
50/60Hz

Options

Magnetic counterfeit detection aid
(CDA©)

UV detection aid

Metal thread detection

RS232 interface link

600 note capacity large output tray
(89mm)
